## PROFILE

Looking for an opportunity to expand on my experience and challenge myself in a new environment. Professional industry experience with Angular and Microsoft SQL, building and maintaining financial software for enterprise-scale companies.

## EDUCATION

### THE IRON YARD - FRONT-END ENGINEERING, 2017

Intensive curriculum for new programmers, class was from 9am to 5pm, Monday-Friday: spent the first month focusing on front-end fundamentals (HTML, CSS, JS); three weeks were dedicated to backend concepts, API's, and databases (implemented using Node.JS and SQL); final 5 weeks were focused on front-end engineering using React.

## SKILLS

- ❖ Front-End: HTML, CSS, Sass, JavaScript, Angular 4, TypeScript, React, Redux
- ❖ Back End: Node.JS, PostgreSQL, Microsoft SQL
- ❖ Source Control and Collaboration: Git, GitHub, VSTS, Slack, Agile, Scrum

## EXPERIENCE

### WEB DEVELOPER, MINTEK; OLDSMAR, FL – 2017- PRESENT

Developed and deployed an enterprise-scale budgeting and asset-management application for a Fortune 100 company using Angular 4 and Sass. Implemented Agile product planning and Scrum collaboration techniques. Contributor to UI design and front-end architecture.

### PRODUCT SPECIALIST, MASTRO SUBARU; TAMPA, FL - 2016 - 2017

Worked with directly with clients, providing an expert resource on products and application. Constant self-directed learning and dedication to staying on top of current trends and updates.

### ASSOCIATE SALES REPRESENTATIVE, TECH DATA; CLEARWATER, FL – 2015 - 2016

Point of contact for key customer account, daily responsible for accurate processing of orders and the providing of quotes using SAP. First responder to customer issues, which were met with genuine effort and quick resolution. Consistently met personal goals and contributed to the success of our regional team in a high-stress atmosphere.
